# 바이낸스 API 연결가이드

레비아 자동매매 사전준비

자세히 보기

01

# 주의사항

## ● PC로만 가능합니다

모바일은 불가능합니다.  
PC로 진행해주세요.

## ● KEY를 꼭 저장해주세요

API KEY와 SECRET KEY는  
키 발급시 한번만 확인이 가능합니다.  
미리 저장해주세요.

01

# 주의사항

---

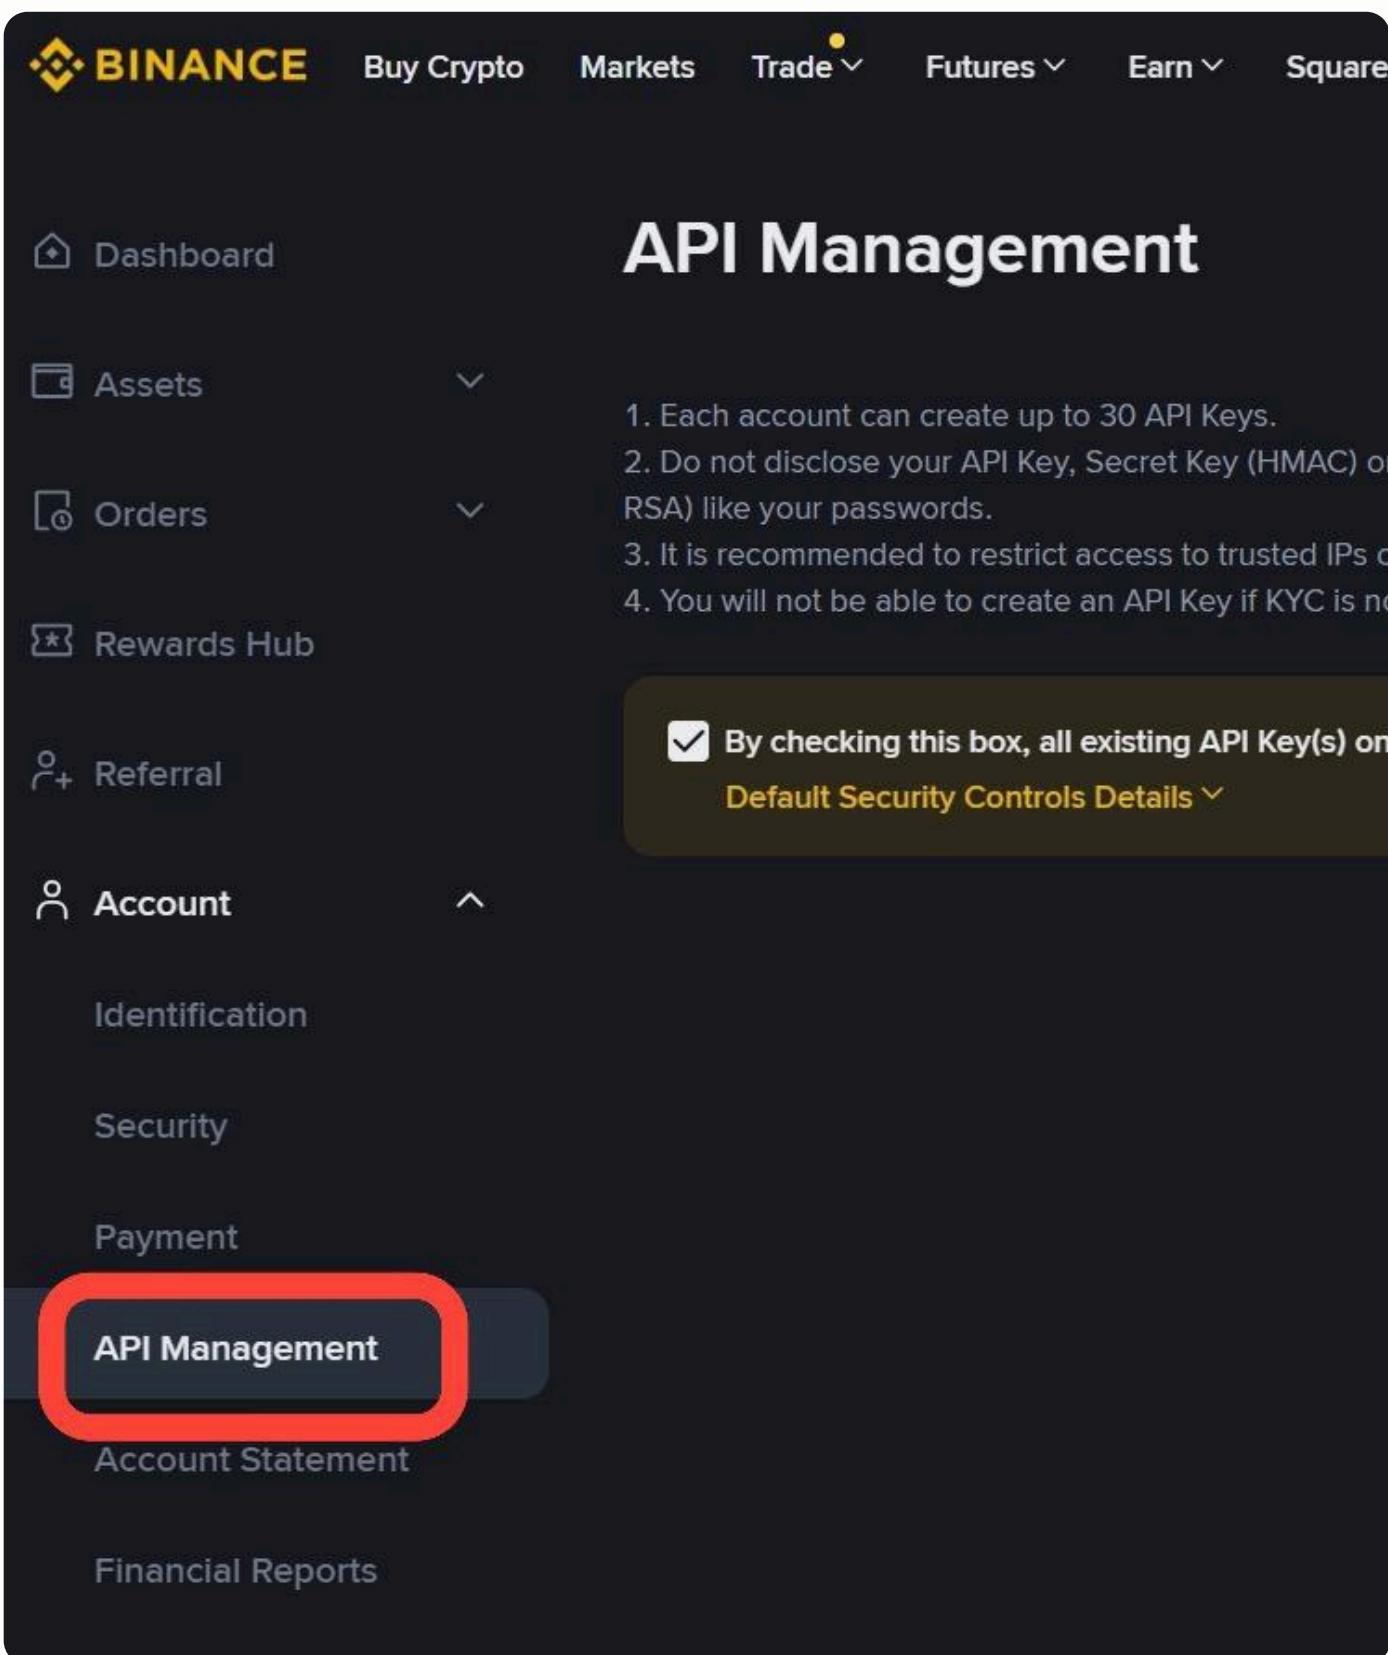

## ✓ 고정적인 장소에서 진행해주세요.

24시간 자동매매가 돌아갈 장소의 IP 주소를 입력해야 합니다. (바이낸스 API 보안절차)

만약 다른 공간에 계시다면, **앞으로 자동매매 프로그램을 켜놓을 공간에서 진행해주세요.**

02

## 연결방법

The screenshot shows the Binance API Management page. At the top, there is a navigation bar with the Binance logo, 'Buy Crypto', 'Markets', 'Trade' (with a dropdown arrow), 'Futures' (with a dropdown arrow), 'Earn' (with a dropdown arrow), and 'Square'. Below the navigation bar, the main title is 'API Management'. On the left side, there is a sidebar with the following items: 'Dashboard', 'Assets' (with a dropdown arrow), 'Orders' (with a dropdown arrow), 'Rewards Hub', 'Referral', and 'Account' (with a dropdown arrow). Under 'Account', there are sections for 'Identification', 'Security', 'Payment', and 'API Management'. The 'API Management' button is highlighted with a red rounded rectangle. On the right side, there is a list of instructions:

1. Each account can create up to 30 API Keys.
2. Do not disclose your API Key, Secret Key (HMAC or RSA) like your passwords.
3. It is recommended to restrict access to trusted IPs only.
4. You will not be able to create an API Key if KYC is not completed.

Below the instructions, there is a checkbox with the text 'By checking this box, all existing API Key(s) on this account will be deleted.' followed by 'Default Security Controls Details' with a dropdown arrow. At the bottom of the page, there are links for 'Account Statement' and 'Financial Reports'.

1) PC로 바이낸스 로그인 후  
빨간 박스를 눌러주세요.

to avoid asset losses. You should treat your API Key and your

: will be subject to Default Security Controls.

2) 오른쪽 상단에 create API를 눌러주세요.

04

# 연결방법

## System generated

Works using HMAC symmetric encryption. An API Key and Secret Key will be provided to you. Please keep these keys secure and treat it like your password. Do not share the keys with any third parties.

## Self-generated

Works using Ed25519 or RSA asymmetric encryption. An API Key will be provided to you and you will have to create your own public-private key pair via software (for example: [Binance Key Generator](#)), and provide the public key to Binance. Please keep the API Key and Private Key secure and treat it like your password. Do not share the API Key or Private Key with any third parties.

# 연결방법

The screenshot shows a mobile application interface with a dark theme. At the top, there is a blue circular badge with the number "12". Below it is a large, bold Korean title "연결방법". The main content area has a white background and features a navigation bar on the left with the following items:

- Dashboard
- Assets
- Orders
- Rewards Hub
- Referral
- Account
  - Identification
  - Security
  - Payment
  - API Management
- Financial Reports

The "API Management" item in the Account section is highlighted with a red oval border. To its right, there is a list of instructions:

1. Each account can create up to 30 API Keys.
2. Do not disclose your API Key, Secret Key (HMAC) or Private Key (RSA) like your passwords.
3. It is recommended to restrict access to trusted IPs only to increase security.
4. You will not be able to create an API Key if KYC is not completed.

Below these instructions is a checkbox with the text: "By checking this box, all existing API Key(s) on your master account will be deleted." A yellow arrow points to this checkbox. Further down, there is a section titled "Default Security Controls Details" with a yellow arrow pointing to it. On the right side of the screen, there is a button labeled "HMAC 레비아 자동매매" (Lebia Auto Trade) which is also highlighted with a red oval border.

10) 모든 절차가 완료됐습니다.
